2017 - 2018

FATIMA HIGHER SECONDARY SCHOOL

- 10th
- Percentage : 79%

PROJECTS

Tools & Methods: Figma • Canva • Framer • User Flows • Wireframing • Prototyping • High-Fidelity UI • Information Architecture • User Research • Design System

Financial App (MoneyMate) - Designed a mobile finance app to help users track expenses and build healthier spending habits. Created user flows, wireframes, and high-fidelity prototypes in Figma, focusing on intuitive dashboards, guided savings & spendings, and reducing user's financial anxiety.

FitMentor – Fitness Coaching Landing Page – Designed a responsive landing page to improve user engagement and lead generation. Applied information architecture, wireframing, prototyping, and visual hierarchy to create clear navigation and effective call-to-action sections.

Food-Burger E-Commerce App (Figma) – Designed a mobile food ordering application with an intuitive end-to-end ordering experience. Developed user flows, wireframes, and high-fidelity interfaces focused on seamless navigation and an efficient checkout flow.

Journify Travel-Guide App - Designed a mobile-first travel guide application that helps users discover attractions, restaurants, events, and stays. Focused on information architecture, intuitive navigation, and user-centered design to simplify trip planning.

WORK EXPERIENCE

UI/UX Design Intern – Duhzine IT Solutions | Apr 2026 – Jun 2026.

- Contributed to UI/UX design for multiple live client projects across healthcare, fitness, real estate, photography, e-learning, and e-commerce domains, creating responsive interfaces based on business and client requirements.
- Managed the complete UI/UX design workflow, including requirement gathering, competitor analysis, user flows, wireframing, high-fidelity UI design, and interactive prototyping in Figma.
- Designed responsive interfaces, iterated on designs based on stakeholder feedback, and ensured usability, visual consistency, and alignment with project goals.
- Prepared presentation decks, case studies, and client-ready deliverables.

UI/UX Design & Front-end Developer (Shopify) - Indian Gardens | Pondicherry | Aug 2024 – Mar 2026.

- Designed, customized, and maintained a Shopify e-commerce website by modifying themes, organizing product collections, updating content, and improving page layouts for a seamless user experience.
- Developed digital and print marketing materials, including banners, product stickers, and promotional creatives, ensuring consistent brand identity across the website and social media..
- Worked closely with the business owner to gather requirements, implement design changes, and continuously enhance the website based on business goals and customer needs.
