PROFILE

UI/UX Designer with 2 years of experience designing responsive web and mobile experiences across e-commerce and client projects. Skilled in Figma, user flows, information architecture, wireframing, prototyping, interaction design, high-fidelity UI design, responsive design, and design systems. Experienced in translating business and user requirements into intuitive digital experiences and collaborating with developers and stakeholders throughout the design process.

SKILLS

- **UX Design:** User-Centered Design, Secondary Research, Requirements Gathering, User Flows, Information Architecture, Wireframing, Prototyping, Interaction Design, Usability, Responsive Design, Accessibility.
- **UI Design:** High-Fidelity UI Design, Visual Hierarchy, Layout Design, Typography, Color, Components, Design Systems, Responsive Web Design, Mobile App Design.
- **Design Tools:** Figma, Canva, Framer, Penpot, Stitch, Lovable , ChatGpt, Claude AI.
- **Collaboration:** Developer Handoff, Design Iteration, Feedback Incorporation.
- **Front-End Technologies** : HTML5, CSS3, JavaScript (ES6+), Bootstrap, React.js, Git and GitHub.

EXPERIENCE

UI/UX Design Intern

Apr 2026 – Jun 2026.

Duhzine IT Solutions

- Turned requirements from 6 client projects across healthcare, fitness, real estate, photography, e-learning, and e-commerce into responsive interface solutions tailored to different business and user needs.
- Explored user and business requirements through competitor analysis and user flows, then developed wireframes, high-fidelity UI, and interactive Figma prototypes to establish clearer experiences.
- Refined mobile and desktop interfaces through stakeholder feedback, resolving usability and visual consistency issues while keeping designs aligned with project objectives.
- Communicated design solutions through client-ready presentations, case studies, and handoff deliverables, making proposed experiences easier for stakeholders to review and understand.

UI/UX Designer Aug 2024 – Apr 2026.

Indian Gardens

- Improved the usability and browsing experience of a Shopify e-commerce website by customizing themes, reorganizing product collections, refining page layouts, and updating content presentation.
- Translated business requirements into website improvements by collaborating directly with the business owner and aligning page updates with business goals and user needs.
- Strengthened brand consistency across digital touchpoints by designing website banners, product stickers, and promotional creatives for the website and social media.

INDEPENDENT UI/UX PROJECTS & SKILL DEVELOPMENT

Jun 2026 – Present.

- Developing and refining personal UI/UX projects to strengthen interface design, responsive layouts, and prototyping skills.
- Improving portfolio case studies to communicate design rationale, design decisions, and project outcomes.
- Practicing relevant web technologies and exploring current UI/UX design practices through hands-on projects.

PROJECTS

Tools & Methods: Figma • Canva • Framer • User Flows • Wireframing • Prototyping • High-Fidelity UI • Information Architecture • Secondary Research • Design System • Components • Variants • Tokens • Variables.

Single-Restaurant Food Ordering App (Burger Day) - Simplified the challenge of ordering multiple burgers with different preferences by designing item-level customization within a low-step ordering flow, allowing users to customize each burger individually while moving smoothly from browsing to payment and order tracking.

Financial App (MoneyMate) - Helped first-time earners understand where their money goes by designing financial dashboards, spending and savings flows, and the Money Mood Indicator to make financial behaviour easier to recognize and act on.

Fitness Coaching Landing Page (FitMentor) – Improved the clarity of a fitness coaching service by structuring its offerings, benefits, and calls to action through information architecture and visual hierarchy, creating a clearer path for visitors from discovering the service to taking action.

Business Networking Website (Busi Hunt) - Structured a responsive business networking platform to help users discover businesses, explore opportunities, and manage business information, using intuitive navigation, information architecture, and streamlined flows across the user platform and admin dashboard.

EDUCATION
